

Better equipment for a better life
Designed by a C5 quadriplegic

Compatible with popular augmented reality cycling apps like Rouvy, Zwift, FulGaz and more

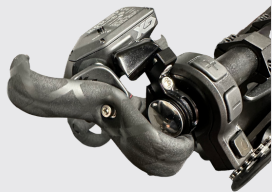

Interact and compete with a global online network of able-bodied and disabled cyclists. Join live races, compete against your own avatar's personal best, or invite friends to your favourite routes from around the world.

Access for wheelchair users to join the able-bodied community and share the same positive mental health benefits of a healthy, social lifestyle
